

MARITIME GOVERNANCE FOR PRACTITIONERS

Build Strategies. Strengthen Governance. Secure Africa's Maritime Future.

8 MODULES
+ Capstone

VIRTUAL
Delivery

AFRICAN
Context-Driven

WHY THIS PROGRAMME?

Africa's maritime domain faces complex and evolving challenges—from piracy, illegal fishing and trafficking to weak institutions and underfunded administrations. While strategies and frameworks exist, turning them into operational outcomes remains a challenge.

This programme closes that gap by grounding practitioners in the theory and practice of maritime governance and strategy development—tailored to the African maritime context.

WHAT YOU WILL GAIN

- ✓ Understand how maritime governance frameworks shape national and regional policy
- ✓ Conduct maritime domain analysis using SWOT and stakeholder tools
- ✓ Apply Vision, Mission, National Maritime Interests, Ends, Ways, Means, and Risk to strategy development
- ✓ Strengthen inter-agency coordination and manage stakeholder conflicts
- ✓ Use operational planning tools (MDMP & COA development) for maritime strategy
- ✓ Plan for implementation, monitoring and evaluation
- ✓ Complete a capstone case study and group presentation

EXPECTED OUTCOMES

-  Develop structured national or regional maritime strategies
-  Enhance inter-agency coordination within maritime governance institutions across Africa
-  Join a network of African maritime practitioners for collaboration and shared learning
-  Produce practical deliverables (SWOT analyses, stakeholder maps, COA briefs, strategy outlines) for use in your institution

INVEST IN YOUR IMPACT. SHAPE AFRICA'S MARITIME FUTURE.

Join a Pan-African cohort of practitioners and become a catalyst for effective maritime governance.

PROGRAMME GOAL

To equip maritime practitioners with the knowledge, analytical tools and strategic competencies necessary to develop, refine and implement effective national and regional maritime strategies.

PROGRAMME STRUCTURE AT A GLANCE

MODULE 1	Introduction to & Foundations of Maritime Governance
MODULE 2	SWOT Analysis of the Maritime Domain
