

To the attention of:
African Excellence Awards 2026

Brussels, 12th May, 2026

Subject: Letter of Appreciation – GOGMI as a driving force within the maritime sector in Africa

Dear African Excellence Awards 2026 Committee,

The EnMAR project — short for Enhanced MARitime Action in the Gulf of Guinea — is a project funded by the European Union and implemented by Expertise France to improve maritime security and economic prosperity in the Gulf of Guinea. It supports political dialogue, cooperation, and capacity building of key partners in the Yaoundé Architecture. As part of its objective, the EnMAR project has had the pleasure of developing a close partnership with the Gulf of Guinea Maritime Institute (GoGMI).

Through this partnership, GOGMI has produced various maritime security analyses for the project, as well as other in-depth analytical briefs. It has also organised a 3-day training for journalists, and media practitioners on maritime security, safety, and blue economy in the Gulf of Guinea. The great collaboration between GOGMI and EnMAR led to a successful event, already yielding impressive results.

From EnMAR's perspective, GoGMI represents an important regional actor in advancing maritime knowledge and a constructive partner for capacity building. Through this letter, the EnMAR project fully supports the nomination of GOGMI for the African Excellence Award. We believe this Award will provide an opportunity to acknowledge GOGMI's contributions and ongoing engagement in supporting maritime security across Africa.

We remain at your disposal should you require any further information.

Sincerely,

Marie GIBRAT
Head of project
